USES ICELESS PLANT TO COOL HIS MEATS

F. T. Leebrick Has Installed New System to Eliminate Ice.

IS LESS EXPENSIVE

Says Plan of Refrigeration Has Proved Successful and Cheap.

Owners of meat markets in small towns have long wished for a device that would provide iceless refrigeration through the hot months. The dream now seems to have come true in the form of a plant such as that now in use at the store of F. T. Leebrick, at Wilkes boulevard and Clay street in North Columbia. No ice whatever is used and yet the result is said to be more satisfactory than if ice were used.

Mr. Leebrick's store being in the outskirts of Columbia, he is in many ways in a position like that of the small-town merchant. He realized the expense and trouble of cooling his meats with ice. When he learned of the Sayer system of refrigeration he decided to try it. A plant was installed in his store in February, 1911, and has been in daily use since. The cost of installation was \$1720.

The plant is composed of an electric motor, the refrigeration machine and the refrigerator or large box in which the meats are kept. In the top of the refrigerator are two tanks containing a brine solution. Around these are coils of pipe through which ammonia circulates from the machine.

The action of the ammonia and brine brings a quick drop in the temperature inside the box. Mr. Leebrick keeps the thermometer inside his box down to freezing or lower most of the time.

During the hot summer period the plant is operated a short time morning and evening. When it is cooler it is necessary to run the machine but once a day. No ammonia or brine has been added to the quantity in the machine and Mr. Leebrick believes that none will be required until next fall. Nor has he been to any other expense for repairs.

The air in the box is dry, which is conducive to the preservation of meats. This is a great advantage over ice, as the air in an ice box is necessarily damp. Pork will keep two weeks in this dry air and beef is preserved indefinitely.

With this machine the disagreeable work of handling ice is done away with entirely. The machine is started and stopped by merely throwing the switch of the motor on and off and the turn of a few valves. The cost of operation is less than the cost of ice.

STEPHENS COLLEGE NOTES

Three Sororities Announce Their Pledges This Year.

There are 98 students enrolled in the "Foods and Cookery" course at the college.

Mrs. Mary Bartlett of Livingston County, Mrs. Mary Murray and daughter of Carroll county, delegates to the W. C. T. U. convention, are guests at the college during their stay in Columbia.

The pledges of the Mu Epsilon sorority are Misses Bessie Field, Slater; Etta Kendrick, Green Ridge; and Belle Jones, Purcell, Okla.

The Sigma Chi sorority announces the following pledges: Misses Margaret Evans, Jefferson City; Elaine Felch, Ellensburg, Wash.; Iona Bondurant, Cairo, Ill.; Katherine Edwards, Kirkwood; Ethel May Hill, Muskogee, Okla.; Ollie May Keaton, Muskogee, Okla.; Ida Fitzgerald, Parsons, Kas.; Ruth Callison, Windsor.

The following girls are pledged to the Beta Sigma Omicron: Misses Maurine DeHart, Cameron; Elizabeth Smith, Kansas City; Janet Fleming, Moberly; Buna Ruggles, Monet; Margaret Kendig, Tulsa, Okla.; Norville Ratcliffe, Vinita, Okla.; Edith Dixon, Welch, Okla.; Marie Archibald, Carrollton.

Miss Ardenia Chapman of Keytesville, Mo., is visiting the Beta Sig girls at the college.

Mrs. Truex of Kirkwood, Mo., spoke to the girls at Convocation Tuesday morning. Mrs. Truex told of the summer work done at Arcadia Heights, and asked for a delegation of Stephens girls for next summer's work.

Watch for the advertisement of the Pratt lot sale Thursday, October 9 at 2 p. m. on the premises. W. S. Pratt. (28,11tc.)

Six beautiful residence lots at auction Thursday, October 9 at 2 p. m. in the fastest developing and best residence part of Columbia just east of the White Campus and the \$100,000 Biology Building, on College, Rosemary and Keiser streets. W. S. Pratt. (28,11tc.)

PANTHERS ARE IN FINE SHAPE

Nee Expects Drury Team to Show Up Well.

Dan Nee's Drury Panthers are in fine condition for next Saturday's game and should come out with a first-rate showing on Rollins Field. There has been a large supply of good material out trying for places on the Drury team. It is expected that they will put up a stiff fight when they meet the Tigers. Nee has been untiring in his efforts to whip into shape a first-class team for this big game.

He expects to have a team that will average 170 or 175 in the line and about 150 in the back field and should have no difficulty except in the selection. With men ranging in weight from 120 to 192, and from five feet, seven inches to six feet five inches in height, a berth with the regulars will be hard to secure.

Clarence (Big) Marr, hails from Aurora, having played on the high school team there and later coming to Drury where he made tackle under Dick Wagstaff. He would have been one of Hugo Bedeck's "Razorbacks," last year, but was forced to leave school on account of trouble with his eyes. Marr weighs 170 and is six feet, two inches in height. Chester Marr, known as "Little" Marr, although he is now the larger of the brothers, is temporarily out of the game on account of injuries received in tackling practice Friday evening, but will report for practice Monday. "Little" Marr tips the beam at 150 and has been showing in good form at center.

Jim Ruffin, who is even six feet tall and weighs 173 pounds, is out for a position on the "All State" team. He is one of the best line men that has worn a Panther uniform. Ruffin is from Aurora where he was a star performer on the high school team.

Guy "Nubby" Hawkins, who has played at tackle on the Drury eleven three years, weighs in at 178 pounds, and is five feet, eleven inches tall. Abial "By" Pierce, who played two years at Springfield High and on the Drury "seconds" year before last, stands a good chance for a place in the line as he is not only fast and aggressive but weighs 172 pounds in training. Walter Brunkhorst, weighs 165 and is six feet, five inches high, being the tallest man in school. This is the first year that Brunkhorst has played the college sport and he has considerable to learn. Irvin Neale, who has played three years on the Fort Smith Ark., high team is the largest man on the field, weighing 192 pounds, and being five feet, eight inches high.

Merle Bollman, one of last year's second string men, weighs 170 pounds, and is even six feet in height. Bollman played with Springfield High before entering Drury. Clifford Shinkle from Mountain Grove high, weighs 165 and is five feet, ten inches tall. S. M. McClure is out in a football suit this year for the first time and gives promise of making a good football man. He is five feet, ten inches, and weighs 143 pounds. Now the question is who will Nee select from this list to make a center, two guards, and two tackles.

Quite a few men are out for the wing positions, none of whom could be classed as heavyweights, but nearly all are fast and aggressive. Collins, left end on last year's squad, is out for practice and is working as usual. "Curly," as he is better known, weighs 35 pounds and is five feet, eight inches high. John Goad weighs 141 pounds and is six feet high. The other men who are after one of the wing berths are John Garrett, Paul Brooke, Glenn Brooke, Clarence Hunter and James Theodore. These are all good men and it is a toss up between them.

There are three lads in line for the quarter-field position, with Clarence "Spike" Shannon having a hard fight to hold the slight edge he has gained. In close running with Shannon are Kem Robertson and Maurice Baldwin. Robertson has it on the others in weight, tipping the beam at 142 pounds, while Shannon is 140, and Baldwin making only 132.

From present appearances Nee will have two sets of backfield men all in the class "A" division. The old backfield which consisted of Turner White, Bob Fyan and Julian Schmid is to have the help of Howard "Doc" Wetzel, Mamilton, Elmore, Drace and Jay White, who played with Drury last year, weighs 140 pounds, and is five feet, seven inches high. "Dode" Schmid is weighing 145, being five feet, eight inches tall. Fyan, who is this year's captain, weighs 150 and is five feet, ten inches tall. Fred Jay, a star performer of Carthage high last year, is expected to make some one work fast for a place in the backfield. Wetzel weighs 170 pounds, and is even six feet tall. Hamilton and Elmore are two good backfield men who hail from Marshfield. Hamilton weighing 135 and Elmore about 164. Both are the same height, five feet, ten inches.

George Shannon, who was injured in the second day's practice, is getting along nicely and expects to report for practice by Monday. Shannon is one of the best prospects for the line weighing 172 pounds and being five feet, eight inches high.

Word has just been received by Nee

that "Moose" Campbell, the big tackle from Michigan forests, will join them. Campbell was without doubt the best man in the line last year and the Panthers are rejoicing greatly over the fact that "Moose" will be back in harness this season. Nee has said that he will have the best college line in the state. The backfield outlook is quite as good as the line and with the assistance of Dillard, Nee should turn out a whirlwind set of backs.

Dancing lessons given privately at 505 Conley. Phone 448 White. (29,1tc)

GIFTS—Graduation, Wedding, Birthday, for your Father, Mother or Sweetheart. A better assortment at Henninger's.

TOMORROW MORNING WE WILL INTRODUCE THE

Tango Pump to University and College Girls

This is the first showing of the Tango Pump in Columbia. We will give every University and College Girl a chance to see these dancing pumps tomorrow.

These pumps are designed to make the new style of dancing easier, more graceful and more comfortable. We are sure they will meet the approval of every one looking for the right sort of dancing pumps.

We can suit your individual taste in style. We have a stock in patent and dull finish leathers and in satin. Prices range at \$3.50, \$4.00 and \$5.00.

Ask to see our line of Hosiery.
